

Welcome to the PIA for FY 2010!

Congress passed the E-Government Act of 2002 to encourage the use of Web-based Internet applications or other information technology by Government agencies, with the intention of enhancing access to government information and services and increasing the effectiveness, efficiency, and quality of government operations.

To combat public concerns regarding the disclosure of private information, the E-Government Act mandated various measures, including the requirement that Federal agencies conduct a Privacy Impact Assessment (PIA) for projects with information technology systems that collect, maintain, and/or disseminate "personally identifiable information" of the public. Personally identifiable information, or "personal information," is information that may be used to identify a specific person.

The Privacy Act and VA policy require that personally identifiable information only be used for the purpose(s) for which it was collected, unless consent (opt-in) is granted. Individuals must be provided an opportunity to provide consent for any secondary use of information, such as use of collected information for marketing.

Directions:

VA 6508 is the directive which outlines the PIA requirement for every System/Application/Program. More information can be found by reading VA 6508.

If you find that you can't click on checkboxes, make sure that you are: 1) Not in "design mode" and 2) you have enabled macros.

PIA Website: <http://vaww.privacy.va.gov/PIA.asp>

Roles and Responsibilities:

Roles and responsibilities for the specific process are clearly defined for all levels of staff in the Privacy Impact Assessment Handbook 6202.2 referenced in the procedure section of this document.

- a. The Privacy Officer is responsible for the overall coordination and review of the PIA to ensure compliance with VA Handbook 6202.2.
- b. Records Officer is responsible for supplying records retention and deletion schedules.
- c. Information Technology (IT) staff responsible for the privacy of the system data will perform a PIA in accordance with VA Handbook 6202.2 and to immediately report all anomalies to the Privacy Service and appropriate management chain.
- d. Information Security Officer (ISO) is responsible for assisting the Privacy Officer and providing information regarding security controls.
- e. The CIO is responsible for ensuring that the systems under his or her jurisdiction undergo a PIA. This responsibility includes identifying the IT systems; coordinating with the Privacy Officer, Information Security Officer, and others who have concerns about privacy and security issues; and reviewing and approving the PIA before submission to the Privacy Service.

Definition of PII (Personally Identifiable Information)

Information in identifiable form that is collected and stored in the system that either directly identifies an individual by name, address, social security number, telephone number, e-mail address, biometric identifiers, photograph, or other unique numbers, codes or characteristics or combined, indirectly identify an individual such as a combination of gender, race, birth date, geographical indicators, license number is also considered PII.

Macros Must Be Enabled on This Form

To enable macros, go to: 1) Tools > Macros > Security - Set to Medium; 2) Click OK; 3) Close the file and when reopening click on Enable Macros at the prompt.

(FY 2010) PIA: System Identification

Program or System Name: FPO > VHA > Health Administration Center > Vista
OMB Unique System / Application / Program Identifier (AKA: UPID #): 029-00-01-01-01-1040-00
Description of System / Application / Program: Each VA medical center and program office uses Vista (formerly DHCP, Decentralized Hospital Computer Program), an integrated hospital information system. DHCP was an M-based internally developed portfolio and Vista encompasses DHCP and a variety of other clinical and administrative applications, some on single-use platforms. Vista is currently running on two core platforms, W2K/Cache and VMS/Cache. This facility operates the following:

[X] InterSystems Cache on Microsoft Windows Server 2003 [WS2003/Cache]
[X] InterSystems Cache on VMS [VMS/Cache]

Vista is structured so that it can be customized in certain specialized areas and most local medical centers and program offices have taken advantage of this flexibility. Applications within Vista support numerous areas, including medical imaging, supply management, decision support, medical research, and education.

VHA began deploying DHCP in 1982 with a core set of applications. Today, Vista is one of the most comprehensive integrated health information systems in the United States. Since episode-of-care workload reporting was an initial motivation for corporate databases, most of VHA's corporate systems collect their information from Vista. Recent enhancements have clearly shifted the focus from workload to enabling the integration of clinical information from various disciplines, forming the basis for an automated and distributed health information system.

The Vista system handles sensitive information including patient medical information, financial information, and employee information. Therefore, the degree of security for the Vista mandatory to protect the confidentiality, integrity, and availability of the data is MODERATE in accordance with FIPS 199. The HAC is not a hospital. There is no life or death impact regarding Confidentiality, Availability, and Integrity associated with the systems at the HAC. Vista is classified as a major application in accordance with NIST 800-18.

2 is Cache on VMS [VMS/Cache].

Is there an authorized change control process which documents any changes to existing applications or systems? Yes

If No, please explain:
Has a PIA been completed within the last three years? Yes

Date of Report (MM/YYYY): 04/2010

Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.

- Have any changes been made to the system since the last PIA?
- Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for the VA?
- Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- Does this system/application/program collect, store or disseminate PII/PHI data?
- Does this system/application/program collect, store or disseminate the SSN?

If there is no Personally Identifiable Information on your system, please skip to TAB 12. (See Comment for Definition of PII)

(FY 2010) PIA: System of Records

Is the data maintained under one or more approved System(s) of Records?

Yes

if the answer above is no, please skip to row 16.

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number):

SOR 54VA16

2. Name of the System of Records:

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

Yes

Does the System of Records Notice require modification or updating?

No

(Please Select Yes/No)

Is PII collected by paper methods?

Yes

Is PII collected by verbal methods?

Yes

Is PII collected by automated methods?

Yes

Is a Privacy notice provided?

Yes

Proximity and Timing: Is the privacy notice provided at the time of data collection?

Yes

Purpose: Does the privacy notice describe the principal purpose(s) for which the information will be used?

Yes

Authority: Does the privacy notice specify the effects of providing information on a voluntary basis?

Yes

Disclosures: Does the privacy notice specify routine use(s) that may be made of the information?

(FY 2010) PIA: Access to Records

Does the system gather information from another system? Yes
 Please enter the name of the system: FMS and DoD

Per responses in Tab 4, does the system gather information from an individual? Yes

If information is gathered from an individual, is the information provided:
 Through a Written Request
 Submitted in Person
 Online via Electronic Form

Is there a contingency plan in place to process information when the system is down? Yes

(FY 2010) PIA: Secondary Use

Will PII data be included with any secondary use request? No

if yes, please check all that apply:
 Drug/Alcohol Counseling Mental Health HIV
 Research Sickle Cell Other (Please Explain)

Describe process for authorizing access to this data.
 Answer: NA

(FY 2010) PIA: Program Level Questions

Does this PIA form contain any sensitive information that could cause harm to the Department of Veterans Affairs or any party if disclosed to the public? No

If Yes, Please Specify:

Explain how collected data are limited to required elements:

Data is collected only for required uses as directed by SOR 54VA16

How is data checked for completeness?

Data is verified by recipient upon receipt.

What steps or procedures are taken to ensure the data remains current and not out of date?

Certain data fields are verified with contact is made to beneficiary, veteran or sponsor.

How is new data verified for relevance, authenticity and accuracy?

Data is verified from primary source to be complete and accurate as well as by phone and written.

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

Answer:

(FY 2010) PIA: Retention & Disposal

What is the data retention period?

6yrs, 3 months after beneficiary is no longer eligible for services

Explain why the information is needed for the indicated retention period?

To verify eligibility and to process or audit claims per VA guidelines

What are the procedures for eliminating data at the end of the retention period?

Files are removed under VA Schedule of Records 10-1, section 38.

Where are these procedures documented?

VA Schedule of Records 10-1, section 38

How are data retention procedures enforced?

Management Support

Has the retention schedule been approved by the National Archives and Records Administration (NARA)

Yes

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

None

(FY 2010) PIA: Children's Online Privacy Protection Act (COPPA)

Will information be collected through the internet from children under age 13? No
