

## **Welcome to the PIA for FY 2010!**

Congress passed the E-Government Act of 2002 to encourage the use of Web-based Internet applications or other information technology by Government agencies, with the intention of enhancing access to government information and services and increasing the effectiveness, efficiency, and quality of government operations.

To combat public concerns regarding the disclosure of private information, the E-Government Act mandated various measures, including the requirement that Federal agencies conduct a Privacy Impact Assessment (PIA) for projects with information technology systems that collect, maintain, and/or disseminate "personally identifiable information" of the public. Personally identifiable information, or "personal information," is information that may be used to identify a specific person.

The Privacy Act and VA policy require that personally identifiable information only be used for the purpose(s) for which it was collected, unless consent (opt-in) is granted. Individuals must be provided an opportunity to provide consent for any secondary use of information, such as use of collected information for marketing.

### **Directions:**

VA 6508 is the directive which outlines the PIA requirement for every System/Application/Program. More information can be found by reading VA 6508.

If you find that you can't click on checkboxes, make sure that you are: 1) Not in "design mode" and 2) you have enabled macros.

PIA Website: <http://vawww.privacy.va.gov/PIA.asp>

### **Roles and Responsibilities:**

Roles and responsibilities for the specific process are clearly defined for all levels of staff in the Privacy Impact Assessment Handbook 6202.2 referenced in the procedure section of this document.

- a. The Privacy Officer is responsible for the overall coordination and review of the PIA to ensure compliance with VA Handbook 6202.2.
- b. Records Officer is responsible for supplying records retention and deletion schedules.
- c. Information Technology (IT) staff responsible for the privacy of the system data will perform a PIA in accordance with VA Handbook 6202.2 and to immediately report all anomalies to the Privacy Service and appropriate management chain.
- d. Information Security Officer (ISO) is responsible for assisting the Privacy Officer and providing information regarding security controls.
- e. The CIO is responsible for ensuring that the systems under his or her jurisdiction undergo a PIA. This responsibility includes identifying the IT systems, coordinating with the Privacy Officer, Information Security Officer, and others who have concerns about privacy and security issues, and

systems; coordinating with the Privacy Officer, Information Security Officer, and others who have concerns about privacy and security issues; and reviewing and approving the PIA before submission to the Privacy Service.

**Definition of PII (Personally Identifiable Information)**

Information in identifiable form that is collected and stored in the system that either directly identifies an individual by name, address, social security number, telephone number, e-mail address, biometric identifiers, photograph, or other unique numbers, codes or characteristics or combined, indirectly identify an individual such as a combination of gender, race, birth date, geographical indicators, license number is also considered PII.

**Macros Must Be Enabled on This Form**

To enable macros, go to: 1) Tools > Macros > Security - Set to Medium; 2) Click OK; 3) Close the file and when reopening click on Enable Macros at the prompt.

What specific legal authorities authorize this program or system:

N/A

What is the expected number of individuals that will have their PII stored in this system:

None - no PHI/PII

Identify what stage the System / Application / Program is at:

Operations/Maintenance

The approximate date (MM/YYYY) the system will be operational (if in the Design or Development stage), or the approximate number of years the system/application/program has been in operation.

8 years

Is there an authorized change control process which documents any changes to existing applications or systems?

Yes

If No, please explain:

Has a PIA been completed within the last three years?

Yes

---

Date of Report (MM/YYYY): 03/2010

---

**Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.**

- Have any changes been made to the system since the last PIA?
- Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for the VA?
- Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- Does this system/application/program collect, store or disseminate PII/PHI data?
- Does this system/application/program collect, store or disseminate the SSN?

**If there is no Personally Identifiable Information on your system , please skip to TAB 12. ( See Comment for Definition of PII)**

## (FY 2010) PIA: System of Records

---

Is the data maintained under one or more approved System(s) of Records?

if the answer above is no, please skip to row 16.

---

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number):
  2. Name of the System of Records:
  3. Location where the specific applicable System of Records Notice may be accessed (include the URL):
- 

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

---

Does the System of Records Notice require modification or updating?

---

*(Please Select Yes/No)*

Is PII collected by paper methods?

Is PII collected by verbal methods?
