

Welcome to the PIA for FY 2011!

Congress passed the E-Government Act of 2002 to encourage the use of Web-based Internet applications or other information technology by Government agencies, with the intention of enhancing access to government information and services and increasing the effectiveness, efficiency, and quality of government operations.

To combat public concerns regarding the disclosure of private information, the E-Government Act mandated various measures, including the requirement that Federal agencies conduct a Privacy Impact Assessment (PIA) for projects with information technology systems that collect, maintain, and/or disseminate "personally identifiable information" of the public. Personally identifiable information, or "personal information," is information that may be used to identify a specific person.

The Privacy Act and VA policy require that personally identifiable information only be used for the purpose(s) for which it was collected, unless consent (opt-in) is granted. Individuals must be provided an opportunity to provide consent for any secondary use of information, such as use of collected information for marketing.

Directions:

VA 6508 is the directive which outlines the PIA requirement for every System/Application/Program.

If you find that you can't click on checkboxes, make sure that you are: 1) Not in "design mode" and 2) you have enabled macros.

PIA Website: http://vawww.privacy.va.gov/Privacy_Impact_Assessments.asp

Roles and Responsibilities:

Roles and responsibilities for the specific process are clearly defined for all levels of staff in the VA Directive 6508 referenced in the procedure section of this document.

- a. The Privacy Officer is responsible for the overall coordination and review of the PIA to ensure compliance with VA Directive 6508.
- b. Records Officer is responsible for supplying records retention and deletion schedules.
- c. Information Technology (IT) staff responsible for the privacy of the system data will perform a PIA in accordance with VA Directive 6508 and to immediately report all anomalies to the Privacy Service and appropriate management chain.
- d. Information Security Officer (ISO) is responsible for assisting the Privacy Officer and providing information regarding security controls.
- e. The CIO is responsible for ensuring that the systems under his or her jurisdiction undergo a PIA. This responsibility includes identifying the IT systems; coordinating with the Privacy Officer, Information Security Officer, and others who have concerns about privacy and security issues; and reviewing and approving the PIA before submission to the Privacy Service.

Definition of PII (Personally Identifiable Information)

Information in identifiable form that is collected and stored in the system that either directly identifies and individual by name, address, social security number, telephone number, e-mail address, biometric identifiers, photograph, or other unique numbers, codes or characteristics or combined, indirect identify an individual such as a combination of gender, race, birth date, geographical indicators, license number is also considered PII.

Macros Must Be Enabled on This Form

Microsoft Office 2003: To enable macros, go to: 1) Tools > Macros > Security - Set to Medium; 2) Click OK; 3) Close the file and when reopening click on Enable Macros at the prompt.

Microsoft Office 2007: To enable macros, go to: 1) Office Button > Prepare > Excel Options > Trust Center > Trust Center Settings > Macro Settings > Enable

All Macros; 2) Click OK

Final Signatures

Final Signatures are digitally signed or wet signatures on a case by case basis. All signatures should be done when all modifications have been approved by the VA Privacy Service and the reviewer has indicated that the signature is all that is necessary to obtain approval.

Privacy Impact Assessment Uploaded into SMART

Privacy Impact Assessments should be uploaded into C&A section of SMART.

All PIA Validation Letters should be emailed to christina.pettit@va.gov to received full credit for submission.

(FY 2011) PIA: System Identification

Program or System Name: CDCO > AITC > VHA > Environmental Agents Service Registries (EAS/R)
 OMB Unique System / Application / Program Identifier (AKA: UPID #): 029-00-01-11-01-1180-00
 Description of System/ Application/ Program: EAS is a web-based standardized methodology for processing and storing specific medical and demographic data related to the examination of veterans and veterans' dependents. The purpose of EAS is to collect and store information so that it may be used for studies of patterns of war-related diseases and, in some cases, determination of benefits eligibility.

Facility Name: Austin Information Technology Center (AITC)

Date of Last PIA Approved by VACO Privacy Services: (MM/YYYY): 06/2009

Date Approval To Operate Expires: 08/2011

What specific legal authorities authorize this program or system: Title 38 United States Code 1710(e)(1)(B) and 1720E
 What is the expected number of individuals that will have their PII stored in this system: 700,000
 Identify what stage the System / Application / Program is at: Operations/Maintenance
 The approximate date (MM/YYYY) the system will be operational (if in the Design or Development stage), or the approximate number of years the system/application/program has been in operation. 32 years (Dec 1977) includes time from which data was collected on manual forms; automated system age is approximately 11 years.
 Is there an authorized change control process which documents any changes to existing applications or systems? Yes
 If No, please explain:
 Has a PIA been completed within the last three years? Yes
 Date of Report (MM/YYYY): 11/2010

Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.

- Have any changes been made to the system since the last PIA?
- Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for the VA?
- Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- Does this system/application/program collect, store or disseminate PII/PHI data?
- Does this system/application/program collect, store or disseminate the SSN?

If there is no Personally Identifiable Information on your system , please complete TAB 7 & TAB 12. (See Comment for Definition of PII)

(FY 2011) PIA: System of Records

Is the data maintained under one or more approved System(s) of Records? If the answer above no, please skip to row 15.

Yes

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number):

121VA19, 105VA131, 93VA131, 69VA131

2. Name of the System of Records:

National Patient Databases-VA, Agent Orange Registry-VA, Gulf War Registry-VA, Ionizing Radiation Registry-VA

3. Location where the specific applicable System of Records Notice may be accessed (include the URL):

http://www.rms.oit.va.gov/SOR_Records.asp

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

Yes

Does the System of Records Notice require modification or updating?

No

(Please Select Yes/No)

Is PII collected by paper methods?

Yes

Is PII collected by verbal methods?

Yes

Is PII collected by automated methods?

Yes

Is a Privacy notice provided?

Yes

Proximity and Timing: Is the privacy notice provided at the time of data collection?

Yes

Purpose: Does the privacy notice describe the principal purpose(s) for which the information will be used?

Yes

Authority: Does the privacy notice specify the effects of providing information on a voluntary basis?

Yes

Disclosures: Does the privacy notice specify routine use(s) that may be made of the information?

Yes

(FY 2011) PIA: Access to Records

Does the system gather information from another system? Yes

Please enter the name of the system: National Patient Care Database (NPCD)

Per responses in Tab 4, does the system gather information from an individual? Yes

If information is gathered from an individual, is the information provided:

- Through a Written Request
- Submitted in Person
- Online via Electronic Form

Is there a contingency plan in place to process information when the system is down? Yes

(FY 2011) PIA: Secondary Use

Will PII data be included with any secondary use request? No

if yes, please check all that apply:

- Drug/Alcohol Counseling
- Mental Health
- HIV
- Research

Answer:

(FY 2011) PIA: Program Level Questions

Does this PIA form contain any sensitive information that could cause harm to the Department of Veterans Affairs or any party if disclosed to the public?

No

If Yes, Please Specify:

Explain how collected data are limited to required elements:

Answer: Elements are defined by Office Of Environmental Hazards (OEH)

How is data checked for completeness?

Answer: Guidelines established by OEH are enforced where applicable.

What steps or procedures are taken to ensure the data remains current and not out of date?

Answer: Facility has the option to edit and update data or perform supplemental exams at the veteran's request.

How is new data verified for relevance, authenticity and accuracy?

Answer: Veteran reviews and endorses information gathered.

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

Answer:

(FY 2011) PIA: Retention & Disposal

What is the data retention period?

Answer: The retention process is based upon the Department of Veterans Affairs Record Control Schedule 10-1, Revised June 28, 2006. Data will be retained until 3 years after last episode of care. It will then be converted to an archived system but will be retrievable if/when the patient returns for further treatment. Data in the archived system will be retained 75 years after the veteran's last episode of care.

Explain why the information is needed for the indicated retention period?

Answer: Potential for future claims based on exposures. Department of Veterans Affairs Record Control Schedule 10-1, Revised June 28, 2006, specifies how long patient data will be maintained.

What are the procedures for eliminating data at the end of the retention period?

Answer: Data will be purged 75 years after the veteran's last episode of care.

Where are these procedures documented?

Answer: VA HBK 6300.1, Records Management Procedures explains the Records Control Schedule procedures.

How are data retention procedures enforced?

Answer: VA Directive 6300, Records and Information Management contains the policies and responsibilities for VA's Records and Information Management program. VA Handbook 6300.1, Records Management Procedures, contains mandatory procedures for the proper management of records effectively and efficiently throughout their life cycle. Neither the directive or handbook is a Records Control Schedule. Procedures are enforced by Records Management Staff and VA Records Officers.

Has the retention schedule been approved by the National Archives and Records Administration (NARA)

Yes

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

Answer:

(FY 2011) PIA: Children's Online Privacy Protection Act (COPPA)

Will information be collected through the internet from children under age 13?

No

If Yes, How will parental or guardian approval be obtained?

Answer:

(FY 2011) PIA: Security

Is the system/application/program following IT security Requirements and procedures required by federal law and policy to ensure that information is appropriately secured. Yes

Has the system/application/program conducted a risk assessment, identified appropriate security controls to protect against that risk, and implemented those controls.. Yes

Is security monitoring conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

Is security testing conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

Are performance evaluations conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

If 'No' to any of the 3 questions above, please describe why:

Answer:

Is adequate physical security in place to protect against unauthorized access? Yes

If 'No' please describe why:

Answer:

Explain how the project meets IT security requirements and procedures required by federal law.

Answer: System undergoes System Authorization (C&A) using applicable NIST, VA, and OIG standards, and utilizes a wide range of both VA and OIG security controls to protect data, media, and the system itself.

Explain what security risks were identified in the security assessment? *(Check all that apply)*

PIA: PIA Assessment

Identify what choices were made regarding the project/system or collection of information as a result of performing the PIA.

Answer: None

Availability Assessment: If the data being collected is not available to process for any reason what will the potential impact be upon the system or organization?
(Choose One)

- The potential impact is **high** if the loss of availability could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of availability could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of availability could be expected to have a limited adverse effect on operations, assets or individuals.

Integrity Assessment: If the data being collected has been corrupted for any reason what will the potential impact be upon the system or organization?
(Choose One)

- The potential impact is **high** if the loss of integrity could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of integrity could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of integrity could be expected to have a limited adverse effect on operations, assets or individuals.

Confidentiality Assessment: If the data being collected has been shared with unauthorized individuals what will the potential impact be upon the system or organization? **(Choose One)**

- The potential impact is **high** if the loss of confidentiality could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of confidentiality could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of confidentiality could be expected to have a limited adverse effect on operations, assets or individuals.

The controls are being considered for the project based on the selections from the previous assessments?

The minimum security requirements for our high impact system cover seventeen security-related areas with regard to protecting the confidentiality, integrity, and availability of VA information systems and the information processed, stored, and transmitted by those systems. The security-related areas include: access control; awareness and training; audit and accountability; certification, accreditation, and security assessments; configuration management; contingency planning; identification and authentication; incident response; maintenance; media protection; physical and environmental protection; planning; personnel security; risk assessment; systems and services acquisition; system and communications protection; and system and information integrity. Our facility employs all security controls in the respective high impact security control baseline unless specific exceptions have been allowed based on the tailoring guidance provided in NIST Special Publication 800-53 and specific VA directives.
