

(FY 2011) PIA: System Identification

Program or System Name: REGION 5 > VBA > C&P > Philadelphia ITC > Virtual VA

OMB Unique System / Application / Program Identifier (AKA: UPID #): 029-00-01-13-01-1265-00

Virtual VA Paperless Claims Processing is a Web-based suite of information solutions that provides electronic "eFolders" for claims processing through imaging, document management technologies, and integration with output capabilities of several other VA systems. Full implementation of Virtual VA enables VBA to address timely processing of services to veterans, which is currently hindered by the dependence on paper documents. Full implementation will also greatly improve the security and the privacy of veteran data by migrating from a vulnerable, paper claims folder to a secure, centralized, and electronic claims folder for compensation and pension processing.

Description of System/ Application/ Program:

Facility Name: Philadelphia Information Technology Center (PITC)

Title:	Name:	Phone:	Email:
Privacy Officer:	Lisa Matuszczak	202-461-9039	lisa.matuszczak@va.gov
Information Security Officer:	Jessica L. Carriveau	727-319-5954	jessica.carriveau@va.gov
System Owner/ Chief Information Officer:	Kevin C. Causley	202-461-9170	kevin.causley@va.gov
C&A Project Officer	Mary D. Barley	202-461-9175	mary.barley@va.gov
Person Completing Document:	Ken Williams	512-326-6178	kenneth.williams18@va.gov
Other Titles:			
Date of Last PIA Approved by VACO Privacy Services: (MM/YYYY)			07/2008
Date Approval To Operate Expires:			07/2011

What specific legal authorities authorize this program or system: Title 10, U.S.C.; Title 38 U.S.C Chapters 11, 13, 15, 30, 31, 32, 33, 34, 35, and 36; Pub. L. 102-484, Pub. L. 98-77

What is the expected number of individuals that will have their PII stored in this system: 10,000,000-19,999,999

Identify what stage the System / Application / Program is at: Operations/Maintenance

The approximate date (MM/YYYY) the system will be operational (if in the Design or Development stage), or the approximate number of years the system/application/program has been in operation.

Virtual VA supporting the Pension Maintenance Centers have been operational for approximately five years. The approximate final operational date is 07/2011.

Is there an authorized change control process which documents any changes to existing applications or systems?

Yes

If No, please explain:

Has a PIA been completed within the last three years?

Yes

Date of Report (MM/YYYY):

05/2011

Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.

- Have any changes been made to the system since the last PIA?
- Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for the VA?
- Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- Does this system/application/program collect, store or disseminate PII/PHI data?
- Does this system/application/program collect, store or disseminate the SSN?

If there is no Personally Identifiable Information on your system, please complete TAB 2 & TAB 12. (See Comment for Definition of PII)

(FY 2011) PIA: System of Records

Is the data maintained under one or more approved System(s) of Records? If the answer above no, please skip to row 15.

Yes

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number): 58VA21/22/28
2. Name of the System of Records: Veterans and Beneficiaries Identification and Records Location (BIRLS) and Compensation, Pension, Education, and Rehabilitation (covers BDN and Corporate databases)
3. Location where the specific applicable System of Records Notice may be accessed (include the URL): http://www.va.gov/oit/cio/foia/systems_of_records.asp

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

Yes

Does the System of Records Notice require modification or updating?

No

(Please Select Yes/No)

Is PII collected by paper methods?

Yes

Is PII collected by verbal methods?

No

Is PII collected by automated methods?

Yes

Is a Privacy notice provided?

Yes

Proximity and Timing: Is the privacy notice provided at the time of data collection?

Yes

Purpose: Does the privacy notice describe the principal purpose(s) for which the information will be used?

Yes

Authority: Does the privacy notice specify the effects of providing information on a voluntary basis?

Yes

Disclosures: Does the privacy notice specify routine use(s) that may be made of the information?

Yes

(FY 2011) PIA: Notice

Please fill in each column for the data types selected.

Data Type	Collection Method	What will the subjects be told about the information collection?	How is this message conveyed to them?	How is a privacy notice provided?
Veteran or Primary Subject's Personal Contact Information (name, address, telephone, etc)	Web Data Storage Device	The privacy of our customers has always been of utmost importance to the Department of Veterans Affairs. The VA has a long history of protecting your privacy and our concern for your privacy is no different in the electronic age.	Written	Written
Family Relation (spouse, children, parents, grandparents, etc)	Paper	Intended use of information is to designate a VA guardian to manage the VA compensation and pension benefits of those individuals who are not competent to manage their own funds for VA entitlement purposes.	Written	Written
Service Information	Web Data Storage Device	Intended use of information is to determine eligibility for VA compensation and pension benefits.	All	All
Medical Information	ALL	Intended use of information is to determine entitlement to VA compensation and pension benefits.	Verbal & Written	Verbal & Written
Criminal Record Information				

Guardian Information

ALL

Intended use of information is to designate a VA guardian to manage the VA compensation and pension benefits of those individuals who are not competent to manage their own funds for VA entitlement purposes.

All

All

(FY 2011) PIA: Data Sharing

Organization	Name of Agency/Organization	Do they access this system?	Identify the type of Data Sharing and its purpose.	Is PII or PHI Shared?	What is the procedure you reference for the release of information?
Internal Sharing: VA Organization	C&P Services	Yes	C&P services shares disability information with the VHA to enable the VHA to deliver the health services the veteran is eligible to receive. VBA also shares burial eligibility information with NCA	PII	This system has documented Memorandums of Understanding/Agreement with all of its business partners, including veteran organizations, federal agencies, state agencies, and contractors in regard to confidential business information, Privacy Act, and certain information that is subject to confidentiality protections. This includes all the entities mentioned previously within this document and includes the Department of Defense, and the Social Security Administration. A detailed listing of all business partners is available from the project manager. VBA has strict control measures in place to prevent the inadvertent or deliberate release of information to non-authorized personnel.
	VSO representatives	Yes	A veteran may elect a VSO representative to act on his behalf. This requires a power of attorney be submitted by the veteran naming the VSO.	PII	See above

Other Federal Government Agency	Department of Defense, Social Security Administration, Federal Housing Administration, Internal Revenue Service, and Department of Housing and Urban Development	No	The system has documented Memorandums of Understanding/Agreements with all of its VA business partners, federal agencies, state agencies and local agencies in regard to confidential business information, Privacy Act and certain information that is subject to confidentiality protections. The federal agencies mentioned are as follows: Department of Defense, Social Security Administration, Federal Housing Administration, Internal Revenue Service, and Department of Housing and Urban Development.	PII	The system has documented Memorandums of Understanding/Agreements with all of its VA business partners, federal agencies, state agencies and local agencies in regard to confidential business information, Privacy Act and certain information that is subject to confidentiality protections.
State Government Agency					
Local Government Agency					
Research Entity					
Other Project / System	CSS	Yes	Data is stored in a central repository and is available to other VBA applications. Access with the VBA regardless of application is provided through CSS.	PII	An ISO must approve any user who seeks to access this information.
Other Project / System					
Other Project / System					

(FY 2011) PIA: Access to Records

Does the system gather information from another system? Yes

Please enter the name of the system: CSS

Per responses in Tab 4, does the system gather information from an individual?

If information is gathered from an individual, is the information provided:

- Through a Written Request
- Submitted in Person
- Online via Electronic Form

Is there a contingency plan in place to process information when the system is down? Yes

(FY 2011) PIA: Secondary Use

Will PII data be included with any secondary use request? No

if yes, please check all that apply:

- Drug/Alcohol Counseling
- Mental Health
- HIV
- Research
- Sickle Cell
- Other (Please Explain)

Describe process for authorizing access to this data.

Answer:

(FY 2011) PIA: Program Level Questions

Does this PIA form contain any sensitive information that could cause harm to the Department of Veterans Affairs or any party if disclosed to the public?

If Yes, Please Specify:

Explain how collected data are limited to required elements:

Answer: Information is collected primarily on defined forms and entered to specific fields of database records. The required veteran's data are stored within the database(s) which support the individual claim or claims the veteran has been granted.

How is data checked for completeness?

Answer: Data is checked for completeness by system audits, manual verifications and annual questionnaires through automated veteran letters. These letters ask specific questions for verification based on the existing entitlement or benefit the veteran is receiving. Also, data is updated with each veteran correspondence.

What steps or procedures are taken to ensure the data remains current and not out of date?

Answer: Data is updated as a result of returned mail, or returned direct deposits, or through contact with the veteran, beneficiary, or power of attorney. Additionally, verifications and system audits are performed.

How is new data verified for relevance, authenticity and accuracy?

Answer: All data are matched against supporting claims documentation submitted by the veteran, widow, or dependent. Certain data such as SSN is verified with the Social Security Administration. Prior to any award or entitlement authorization(s) by the VBA, the veteran record is manually reviewed and data validated to ensure correct entitlement has been approved.

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

Answer:

(FY 2011) PIA: Retention & Disposal

What is the data retention period?

Answer: Forms that have been initiated but not completed will remain in the VONAPP system for 30 days of continuous inactivity, after which time they will automatically be deleted.

Explain why the information is needed for the indicated retention period?

Answer: The update will evaluate existing data retention practices against current best practices and department and Federal Government guidance.

What are the procedures for eliminating data at the end of the retention period?

Answer: In general, support systems retain information until that work in progress is completed and data is committed to master systems and records. The master systems retain data on a permanent basis (beyond the actual death of the veteran). If a master system is to be deactivated, critical information is migrated to the new system and the old system along with associated data is archived according to the application disposition worksheet. Once archived, existing application code and files are deleted from the system. Data elimination procedures are also being updated.

Where are these procedures documented?

Answer: VA Handbook 6500 and Records Control Schedule (RCS) VBA-1, Part 1, Section 8 available online at <http://www.warms.vba.va.gov/admin23/part1/sec08.doc> and the Systems of Record 58VA21/22 and 38VA23.

How are data retention procedures enforced?

Answer: Management oversight and review enforces data retention policies. In addition, every action, which impacts a record, results in an audit record being created; this audit record is permanently retained.

Has the retention schedule been approved by the National Archives and Records Administration (NARA)

Yes

Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)

Answer:

(FY 2011) PIA: Children's Online Privacy Protection Act (COPPA)

Will information be collected through the internet from children under age 13?

No

If Yes, How will parental or guardian approval be obtained?

Answer: No

(FY 2011) PIA: Security

Is the system/application/program following IT security Requirements and procedures required by federal law and policy to ensure that information is appropriately secured. Yes

Has the system/application/program conducted a risk assessment, identified appropriate security controls to protect against that risk, and implemented those controls.. Yes

Is security monitoring conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

Is security testing conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

Are performance evaluations conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? Yes

If 'No' to any of the 3 questions above, please describe why:

Answer:

Is adequate physical security in place to protect against unauthorized access? Yes

If 'No' please describe why:

Answer:

Explain how the project meets IT security requirements and procedures required by federal law.

Answer: This project implements all applicable Federal Regulations, VA IT Security Policy and Guidelines to include VA Office of Cyber and Information Security mandates, NIST and FISMA guidelines and industry standard best practices.

Explain what security risks were identified in the security assessment? *(Check all that apply)*

Answer: (Other Risks)

Explain what security controls are being used to mitigate these risks. (Check all that apply)

- Access Control
- Audit and Accountability
- Awareness and Training
- Certification and Accreditation Security Assessments
- Configuration Management
- Continuity Planning
- Identification and Authentication
- Incident Response
- Media Protection
- Personnel Security
- Physical and Environmental Protection
- Risk Management

Answer: (Other Controls)

PIA: PIA Assessment

Identify what choices were made regarding the project/system or collection of information as a result of performing the PIA.

Answer: The VBA continually applies emphasis and attention to addressing security and privacy concerns including the assurance that collection of data and personal information contains appropriate consent and release information and that all information stored in VBA databases are secured per VA security standards. This is an agency-mandated activity performed across individual system boundaries.

Availability Assessment: If the data being collected is not available to process for any reason what will the potential impact be upon the system or organization?
(Choose One)

- The potential impact is **high** if the loss of availability could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of availability could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of availability could be expected to have a limited adverse effect on operations, assets or individuals.

Integrity Assessment: If the data being collected has been corrupted for any reason what will the potential impact be upon the system or organization?
(Choose One)

- The potential impact is **high** if the loss of integrity could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of integrity could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of integrity could be expected to have a limited adverse effect on operations, assets or individuals.

Confidentiality Assessment: If the data being collected has been shared with unauthorized individuals what will the potential impact be upon

- The potential impact is **high** if the loss of confidentiality could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of confidentiality could be expected to have a serious adverse effect on operations, assets or individuals.

the system or organization?

(Choose One)

The potential impact is **low** if the loss of confidentiality could be expected to have a limited adverse effect on operations, assets or individuals.

The controls are being considered for the project based on the selections from the previous assessments?

The VA's risk assessment validates the security control set and determines if any additional controls are needed to protect agency operations. Many of the security controls such as contingency planning controls, incident response controls, security training and awareness controls, personnel security controls, physical and environmental protection controls, and intrusion detection controls are common security controls used throughout the VA. Our overall security controls follow NIST SP800-53 moderate impact defined set of controls. The system owner is responsible for any system-specific issues associated with the implementation of this facility' common security controls. These issues are identified and described in the system security plans for the individual information systems.

Please add additional controls:

(FY 2011) PIA: Additional Comments

Add any additional comments or information that may have been left out for any question. Please indicate the question you are responding to and then add your comments.
