

## (FY 2011) PIA: System Identification

Program or System Name: Education Local Area Network (LAN) Major Application (MA)  
 OMB Unique System / Application / Program Identifier (AKA: UPID #): 029-00-01-14-01-1270-00

The mission of the Education LAN applications is to provide financial assistance for education, training, certification, etc. in the form of monthly benefit payments, to veterans, active duty service persons, reservists, and eligible dependents of disabled or deceased veterans in recognition of their military service to this nation. The Education LAN provides a set of integrated applications for VBA's education program services. These applications include Enrollment Certification Automated Processing (ECAP), On-Line Approval File (OLAF), Chapter 30 Personal Computer (PC), Chapter 35 Alternate Input System (CHAIRS), The Image Management System (TIMS), and Workstudy. These applications allow Regional Processing Offices (RPOs) the ability to verify education eligibility, update veterans' information, and process education claims. These applications are the common desktop services that provide an interface to the VBA Corporate Database, the Benefits Delivery Network (BDN), and local RPO databases to process Veteran Education Claims.

Date of Last PIA Approved by VACO Privacy Services: (MM/YYYY)			12/2009
Date Approval To Operate Expires:			08/2011

What specific legal authorities authorize this program or system: Chapters 30, 32, 33, 34, 35, & 36  
 What is the expected number of individuals that will have their PII stored in this system: 75,000  
 Identify what stage the System / Application / Program is at: Operations/Maintenance  
 The approximate date (MM/YYYY) the system will be operational (if in the Design or Development stage), or the approximate number of years the system/application/program has been in operation. 10 years  
 Is there an authorized change control process which documents any changes to existing applications or systems? Yes  
 If No, please explain:  
 Has a PIA been completed within the last three years? Yes

Please check the appropriate boxes and continue to the next TAB and complete the remaining questions on this form.

- Have any changes been made to the system since the last PIA?
- Is this a PIV system/application/program collecting PII data from Federal employees, contractors, or others performing work for the VA
- Will this system/application/program retrieve information on the basis of name, unique identifier, symbol, or other PII data?
- Does this system/application/program collect, store or disseminate PII/PHI data?
- Does this system/application/program collect, store or disseminate the SSN?

If there is no Personally Identifiable Information on your system , please complete TAB 2 & TAB 12. ( See Comment for Definition of PII)

## (FY 2011) PIA: System of Records

Is the data maintained under one or more approved System(s) of Records? If the answer above no, please skip to row 15.

Yes

For each applicable System(s) of Records, list:

1. All System of Record Identifier(s) (number):

58VA21/22/28

2. Name of the System of Records:

58VA21/22/28 SOR Name: Compensation,  
Pension, Education, and Rehabilitation Records-  
VA

3. Location where the specific applicable System of Records Notice may be accessed (include the URL):

Have you read, and will the application, system, or program comply with, all data management practices in the System of Records Notice(s)?

Yes

Does the System of Records Notice require modification or updating?

No

*(Please Select Yes/No)*

Is PII collected by paper methods?

No

Is PII collected by verbal methods?

No

Is PII collected by automated methods?

Yes

Is a Privacy notice provided?

Yes

Proximity and Timing: Is the privacy notice provided at the time of data collection?

Yes

Purpose: Does the privacy notice describe the principal purpose(s) for which the information will be used?

Yes

Authority: Does the privacy notice specify the effects of providing information on a voluntary basis?

Yes

Disclosures: Does the privacy notice specify routine use(s) that may be made of the information?

Yes

(FY 2011) PIA: Access to Records

Does the system gather information from another system? No

Please enter the name of the system:

Per responses in Tab 4, does the system gather information from an individual? Yes

If information is gathered from an individual, is the information provided:

- Through a Written Request
- Submitted in Person
- Online via Electronic Form

Is there a contingency plan in place to process information when the system is down? Yes

**(FY 2011) PIA: Secondary Use**

Will PII data be included with any secondary use request? No

- Drug/Alcohol Counseling
- Mental Health
- HIV
- Research
- Sickle Cell

## (FY 2011) PIA: Program Level Questions

Does this PIA form contain any sensitive information that could cause harm to the Department of Veterans Affairs or any party if disclosed to the public?

No

If Yes, Please Specify:

Explain how collected data are limited to required elements:

Answer: Information requested is through standardized PCGL letters, and appropriate VA forms are automatically attached.

How is data checked for completeness?

Answer: Data elements are compared to previous elements to ensure the correct record and submission by the proper person.

What steps or procedures are taken to ensure the data remains current and not out of date?

Answer: Documents are dated at the time they are uploaded.

How is new data verified for relevance, authenticity and accuracy?

Answer: Data elements are compared to previous elements to ensure the correct record and submission by the proper person.

*Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)*

Answer:

## (FY 2011) PIA: Retention & Disposal

What is the data retention period?

Answer: The data retention period for employee data is contained in RCS VBA-1, Part I, Item Number 08-065.000 and subparagraphs, which states "Destroy files data in accordance with system design." Record information pertaining to employees will continue to be maintained into perpetuity. Records are archived in accordance with retention policies and procedures.

Explain why the information is needed for the indicated retention period?

Answer: A record training approved for any employee are retained indefinitely; PII data collected is integral to the VA's ability to identify employees who have utilized Training resources in the past.

What are the procedures for eliminating data at the end of the retention period?

Answer: VA HBK 6300.1 Records Management Procedures explains the Records Control Schedule procedures. Shredding or burning for hard copy, erasure, and destruction of storage media for electronic records.

Where are these procedures documented?

Answer: VA HBK 6300.1 Records Management Procedures explains the Records Control Schedule procedures.

How are data retention procedures enforced?

Answer: The Director of each RO enforces retention procedures at his/her station. PII stored on central automated VBA systems are backed-up and stored according to policy at the Philly ITC.

Has the retention schedule been approved by the National Archives and Records Administration (NARA)

Yes

*Additional Information: (Provide any necessary clarifying information or additional explanation for this section.)*

**(FY 2011) PIA: Children's Online Privacy Protection Act (COPPA)**

---

Will information be collected through the internet from children under age 13?

If Yes, How will parental or guardian approval be obtained?

Answer:

No

## (FY 2011) PIA: Security

Is the system/application/program following IT security Requirements and procedures required by federal law and policy to ensure that information is appropriately secured. Yes

Has the system/application/program conducted a risk assessment, identified appropriate security controls to protect against that risk, and implemented those controls.. Yes

Is security monitoring conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? No

Is security testing conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? No

Are performance evaluations conducted on at least a quarterly basis to ensure that controls continue to work properly, safeguarding the information? No

If 'No' to any of the 3 questions above, please describe why:

Answer: On an annual basis, the VA Chief Information Officer (CIO), in conjunction with system owners and information owners, and with advice from the VA Office of Inspector General (OIG), evaluate the Department's overall IT security posture. This evaluation includes identification of significant security performance gaps, the prioritization of key POA&M weakness areas for immediate remediation action, as well as the designation of certain security areas that would benefit from enterprise-wide management of a single security solution, thereby effectively targeting those areas for action that would most improve the Department's security posture in the nearterm.

Is adequate physical security in place to protect against unauthorized access? Yes

If 'No' please describe why:

Answer:

Explain how the project meets IT security requirements and procedures required by federal law.

Answer: A standardized Department methodology based on the direction in National Institute of Standards and Technology (NIST) guidance is used to continuously monitor, test and evaluate security for this major application. The approximately 60 common security controls provided by the Office of Information and Technology (OIT), or other respective VA Program Office, are tested every year. Application-specific security testing evaluates approximately one-third of the remaining 90 controls on an annual basis, with the entire respective application NIST Special Publication (SP) 800-53 security control baseline—at the Federal Information Processing Standard (FIPS) 199 level of moderate--being tested over each three-year period. The testing supports certification and re-accreditation requirements, as well as Federal Information Security Management Act (FISMA) requirements to annually test the operational, management, and technical controls of each Department system. The specific controls identified for testing are selected by OIT Operations, with advice from the VA Office of Cyber Security (OCS).

Explain what security risks were identified in the security assessment? (Check all that apply)

- Air Conditioning Failure
- Chemical/Biological Contamination
- Blackmail
- Bomb Threats
- Burglary/Break In/Robbery
- Cold/Frost/Snow
- Communications Loss
- Computer Intrusion
- Computer Misuse
- Data Destruction

- Data Disclosure
- Data Integrity Loss
- Denial of Service Attacks
- Earthquakes
- Eavesdropping/Interception
- Errors (Configuration and Data Entry)
- Fire (False Alarm, Major, and Minor)
- Flooding/Water Damage
- Fraud/Embezzlement

- Hardware Failure
- Identity Theft
- Malicious Code
- Power Loss
- Sabotage/Terrorism
- Storms/Hurricanes
- Substance Abuse
- Theft of Assets
- Theft of Data
- Vandalism/Rioting

Answer: (Other Risks)

Explain what security controls are being used to mitigate these risks. (Check all that apply)

- Access Control
- Audit and Accountability
- Awareness and Training
- Certification and Accreditation Security Assessments
- Configuration Management
- Contingency Planning
- Identification and Authentication
- Incident Response
- Media Protection
- Personnel Security
- Physical and Environmental Protection
- Risk Management

Answer: (Other Controls)

### PIA: PIA Assessment

Identify what choices were made regarding the project/system or collection of information as a result of performing the PIA.

Answer: None.

**Availability Assessment:** If the data being collected is not available to process for any reason what will the potential impact be upon the system or organization?  
(Choose One)

- The potential impact is **high** if the loss of availability could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of availability could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of availability could be expected to have a limited adverse effect on operations, assets or individuals.

**Integrity Assessment:** If the data being collected has been corrupted for any reason what will the potential impact be upon the system or organization?  
(Choose One)

- The potential impact is **high** if the loss of integrity could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of integrity could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of integrity could be expected to have a limited adverse effect on operations, assets or individuals.

**Confidentiality Assessment:** If the data being collected has been shared with unauthorized individuals what will the potential impact be upon the system or organization?  
(Choose One)

- The potential impact is **high** if the loss of confidentiality could be expected to have a severe or catastrophic adverse effect on operations, assets or individuals.
- The potential impact is **moderate** if the loss of confidentiality could be expected to have a serious adverse effect on operations, assets or individuals.
- The potential impact is **low** if the loss of confidentiality could be expected to have a limited adverse effect on operations, assets or individuals.

---

The controls are being considered for the project based on the selections from the previous assessments?

The VA's risk assessment validates the security control set and determines if any additional controls are needed to protect agency operations. Many of the security controls such as contingency planning controls, incident response controls, security training and awareness controls, personnel security controls, physical and environmental protection controls, and intrusion detection controls are common security controls used throughout the VA. Our overall security controls follow NIST SP800-53 moderate impact defined set of controls. The system owner is responsible for any system-specific issues associated with the implementation of this facility' common security controls. These issues are identified and described in the system security plans for the individual information systems.
